## SCHOOL REPORT—TOWN DISTRICT.

Our schools during the past year have been fully up to the average of preceding years.

By using all the money appropriated, and drawing a small sum from the income of the Tuttle legacy, we have been able to give all our pupils an opportunity to attend school thirty weeks during the year.

We think this is all that can be expected in a rural district.

With one exception all the teachers employed have had considerable experience in teaching.

All worked hard to make their schools a success.

During the spring term the experiment was tried of uniting the Plain and Gulf schools, having two grades at the Plain.

We think the plan worked well.

We had two very interesting schools and the teachers did much better work than they possibly could in two mixed schools with a multitude of classes.

The only difficulty in uniting these two schools, where nearly two thirds of our pupils attend, is in securing some one to carry a few of the pupils from the Gulf section. Most of them are within easy walking distance.

It seems to be very hard for some of our people to send their children to school outside of the old district boundaries.

We think the money appropriated could be used to much better advantage by uniting and grading most of our schools.

When a teacher has thirty or thirty-five pupils in a room, with ages ranging from five to fifteen years, but little time can be spent with each class, and it is hard to keep the little ones busy and in order, while hearing the recitations of the older pupils.

In our smaller schools the pupils lose the stimulus of numbers and competition.

Our four smaller schools have only thirty-three names on their registers.

We have two new schoolhouses with a debt of four hundred dollars on the one at N. Boscawen.

Two of our old ones are in good condition having been quite thoroughly repaired within a few years.

The houses at the Plain and Gulf are badly in need of repair and we hope something will be done to improve the inside of these buildings.

The desks are old and uncomfortable and the floors badly worn.

---

## SCHOOL REPORT.

---

### PENACOOK DISTRICT.

It is a pleasure to report our schools in first class condition and that the past year has been a successful one in all the different departments.

The teachers being the same as at the close of last year, some changes and repairs have been made which add to the comfort and looks of the school-rooms. Much more in this line should be done ; new desks are needed in intermediate room and other repairs we hope to see done in the near future.

Much credit is due our faithful and painstaking janitor for the good condition of the school grounds and buildings. Parents and friends are earnestly requested to visit the schools as often as possible and by so doing encourage the teachers and pupils.

GEORGE NELLER,

GUY H. HUBBARD,
